

COVERED CURBSIDE PICK-UP

**INNOVATIVE
DESIGN SOLUTIONS**

OUR STORY

VPS is the world's leading supplier of hail, heat, and UV protection for the automotive, asset protection and covered parking industries. With a reputation for excellent service and industry expertise that has been proven effective over many years, VPS has helped reduce damage to vehicles while simultaneously providing protection from the elements.

PROTECT YOUR CUSTOMER

Enhance your curbside pickup service with premium VPS covered parking structures that offer essential weather protection and clearly defined zones for a seamless customer and employee experience, demonstrating your commitment to well-being through durable, stylish, and functional shade solutions.

WHY CHOOSE **VPS COVERED PARKING** FOR YOUR PROJECT?

1. SUPERIOR PROTECTION

VPS structures offer significant protection from the elements, maintaining cooler temperatures on hot days and safer conditions during harsh winters for both employees and customers.

2. BRANDING & WAYFINDING

VPS parking structures enhance brand identity through customizable designs that improve wayfinding and add sophistication to exterior curbside pickup zones.

3. COMFORT THAT BUILDS LOYALTY

VPS covered parking enhances comfort for customers and staff, creating better experiences, stronger relationships, and more repeat visits.

4. SMARTER OPERATIONS & RETURNS

VPS covered curbside pick-up improves traffic flow, speeds up service, and reduces weather-related delays--boosting efficiency and long-term savings.

STEP 1 - DESIGN PROCESS

- Concept Development
- Renderings and Visualizations
- Preliminary Analysis
- Feasibility Study

STEP 2 - ENGINEERING & APPROVALS

- Establish Geometry of Structure
- Produce 3D CAD Models

STEP 3 - PRODUCTION & INSTALLATION

- Final Analysis
- Steel Fabrication
- Patterning
- Installation

STEP 4 - POST-INSTALLATION SUPPORT

- Ongoing Client Support
- Maintenance Guidance
- Warranty Services
- Customer Satisfaction Follow-Up

FORTUNE 500 COMPANIES THAT TRUST VPS

TARGET

For over 60 years, Target has been a retail leader and continues to innovate by implementing VPS covered drive-up canopies nationwide to improve the safety of their employees during curbside pickup. This allows customers to conveniently pick up online orders, make returns, and even receive Starbucks deliveries at their vehicles.

McDONALD'S

To meet the City of Boulder's sustainability goals during a remodel, McDonald's partnered with VPS which provided both solar carports and rooftop solar panels, enabling McDonald's to satisfy the city's requirements and establish one of the company's most sustainable locations.

WHOLE FOODS

VPS was chosen by Whole Foods and Amazon as their primary manufacturer for a new covered curbside pickup program. VPS created customized designs with various layouts, configurations, and roofing designs for Whole Foods to choose from. Beyond manufacturing, VPS also managed the installation, delivering a streamlined, weather-protected pickup experience intended to enhance shopping for customers and working conditions for employees.
